

# KIMBERLY A KOHEL-HAYES

## SKILLS

**Ruby, Ruby on Rails, Sinatra, HTML, CSS,  
SQLite3, Active Record, APis,  
Windows, Linux, and Mac environments**

## EDUCATION

**Certificate | Expected Feb 2021 | Flatiron**

Immersive coding bootcamp that gives students the education to become lifelong professional software engineers. Flatiron's full stack program teaches programming fundamentals (HTML & CSS, OOP, Ruby, SQL, ORM), web frameworks (Sinatra, Rails), JavaScript, and front-end frameworks (React, Redux, JSON). Students build advanced portfolios to demonstrate their technical skills and creativity and immerse themselves in the technical community.

**Bachelor of Science | 2010 | University of Nebraska**

Natural and Social Sciences

## APPLICABLE EXPERIENCE

**Technical Support Specialist**

**Motorola Broadband Communication Sector**

**1999-2000**

- Work on Sun Solaris Unix platform on Compaq servers with proprietary GUIs and SQL server.
- Install and configure 3rd party software packages while collaborating with various technical department
- 24/7 Support of cable companies in technical support issues.

## OBJECTIVE

**I am seeking meaningful employment while using my analytical skills and education to experience more about programming, algorithms and data structures across several platforms.**
