

KIMBERLY A KOHEL-HAYES

SKILLS

Ruby, Ruby on Rails, Sinatra, HTML, CSS,
SQLite3, Active Record, APis, JavaScript
Windows, Linux, and Mac environments

EDUCATION

Certificate | Expected Apr 2021 | Flatiron

Immersive coding bootcamp that gives students the education to become lifelong professional software engineers. Flatiron's full stack program teaches programming fundamentals (HTML & CSS, OOP, Ruby, SQL, ORM), web frameworks (Sinatra, Rails), JavaScript, and front-end frameworks (React, Redux, JSON). Students build advanced portfolios to demonstrate their technical skills and creativity and immerse themselves in the technical community.

Bachelor of Science | 2010 | University of Nebraska

Natural and Social Sciences

APPLICABLE EXPERIENCE

Technical Support Specialist

Motorola Broadband Communication Sector

1999-2000

- Work on Sun Solaris Unix platform on Compaq servers with proprietary GUIs and SQL server.
- Install and configure 3rd party software packages while collaborating with various technical department
- 24/7 Support of cable companies in technical support issues.

OBJECTIVE

Seeing the changes I make and their results is what drives my creativity and passion for my work. I prefer working with the front-end because updates to my code are readily apparent. I like to see each thing I change and if it's going to work or not.
